Professional Mobile Graphics Expansion for Multiple Displays: CineMassive Displays' CinePort Express Brings Desktop Graphics to a Laptop

CineMassive Displays Offers the CinePort Express Mobile Graphics Expansion Unit

Atlanta, GA – June 8, 2007 – CineMassive Displays' new CinePort Express brings professional, desktop quality 2D and 3D graphics performance to Windows laptops. Weighing only about six pounds and small enough to fit into a laptop bag, the CinePort Express is an indispensable tool for anyone who needs the portability of a laptop and the power of desktop graphics. The CinePort Express is immediately available with three versions, including the CinePort Express DX2, CinePort Express FX2, and CinePort Express DX4.

The CinePort Express is an external graphics expansion unit that connects to a Windows laptop via the laptop's ExpressCard slot. Using the laptop's existing PCI Express bus, the CinePort Express' onboard NVIDIA GPU can communicate directly with the laptop system at speeds far greater than previously possible with external expansion units. The end result is desktop PCI Express graphics performance on a laptop.

The CinePort Express DX series is ideal for professionals in financial services, security, and network operations. Specifically designed for multiple high resolution displays, the CinePort Express DX2 and DX4 can support up to two and four 24" displays respectively.

The CinePort Express FX series is specifically designed for professionals who need powerful 3D or video processing capability. The CinePort Express FX2 features a NVIDIA Quadro FX graphics processor and can support up to two 24" displays running 3D or video editing programs.

For more information on the CinePort Express and for details on pricing, please visit www.cinemassivedisplays.com.

About CineMassive Displays

CineMassive Displays offers professional multiple monitor displays and supporting hardware and software. We are the only company in our industry to offer a 100% compatibility guarantee. All displays come with CineMastery, our exclusive software that enhances Microsoft Windows™ for optimal multiple-monitor performance. Our displays also come with ergonomic mounts for maximum convenience and comfort, a premium three year warranty, and a zero dead pixel policy.
